Prelude and Fugue in F Major  ___________  Vincent Lübeck  (1654 – 1740)

A German organist, composer, and teacher, Vincent Lübeck spent his entire life in or near Hamburg. Between 1674 until 1702, he served at the Lutheran church names in honor of Saints Cosmas and Damian in the Hamburg suburb of Stade, where he married his predecessor’s daughter. From 1702 until his death, he served as the musician at Hamburg’s largest church, St. Nicholas, also a Lutheran church.

Despite Lübeck’s longevity and fame, few of his compositions survive. These include seven preludes, fugues and chorale-based works for the organ, five sacred cantatas, and a few pieces for the harpsichord. The work which begins today’s recital opens with a fanfare-like flourish in the pedal, which is followed by the remainder of the short toccata-like Prelude. The Fugue which follows is based on a short ten-beat theme which appears in many ways before closing in a fanfare-like flourish similar to that found in the opening of the Prelude.

Schübler Chorale Preludes  ___________  Johann Sebastian Bach  (1685 – 1750)

I. Wachet Auf, BWV 645  (The tune may be found at Hymn 349 in Glory to God.)
II. Wo Soll Ich Fliehen, BWV 646  (The tune may be found at Hymn 349 in Glory to God.)
III. Wer nur Den Lieben Gott, BWV 647  (The tune may be found at Hymn 349 in Glory to God.)

Johann Sebastian Bach lived in Protestant North Germany in the days when music there was an important part of the daily life of its residents. He served successively the posts of choir-boy, violinst in the orchestra of a prince, organist of town churches, chief musician of a court, and cantor (chief musician) of a municipal school with charge of the music in its associated churches. Scholars agree that J. S. Bach and his works have influenced the music of the western world more than any other composer in history.

J. G. Schübler, a former student of Bach’s, published a set of six chorale preludes in 1746. Five of the six are untransposed arrangements by Bach of selected movements from his cantatas. The second one performed today, an original composition based on a chorale tune, is the exception.

Andante, K. 616  ________________  Wolfgang Amadeus Mozart  (1756 – 1791)

Mozart is most often associated today with the symphony and the opera. It is not generally known that he spent thirteen years (1767 – 1780) as the organist at St. Stephen’s Cathedral in Salzburg. It was for that organ he wrote his only compositions for organ and orchestra: the seventeen church sonatas, several of which have been performed in worship in our church over the years during The Word Sung services.

Unfortunately, Mozart left no works for solo organ. The three compositions of his performed on the organ were originally written for mechanical clocks containing a small organ. The Andante heard this afternoon was his last work in this genre and was written in the year of his death.

Two Hymn Tune Arrangements  ________________  Andrew L. Clarke  (1941 – )

Chorale Prelude on “Munich”  (The tune may be found at Hymns 289 and 459 in Glory to God.)
Pastoral Dance on “Simple Gifts”  (The tune may be found at Hymn 157 in Glory to God.)

A native of Pittsfiels, Massachusetts, Andrew Clarke was educated at Yale University and the New England Conservatory of Music. He served churches in Albany, New York and in Pittsfield prior to moving to Riverside Presbyterian Church in Jacksonville, Florida, where he served as the Organist-Choirmaster for thirty-six years. In addition, Clarke has taught organ at Williams College and harpsichord and organ improvisation at Yale, has presented recitals through the United States and Canada, has taught workshops on improvisation at several conventions of the American Guild of Organists, and a prolific composer of organ and choral works.

The two works of his performed today are the results of commissions. The first was composed for the 2004 Sewanee (Episcopal) Church Music Conference and the second in 1991 for the Berkeley Chapter of the American Guild of Organists.

Pastorale and Aviary  ________________  Myron J. Roberts  (1912 – 2004)

Born in San Diego, Roberts grew up in Palo Alto, where he studied piano and organ in his elementary and high school years with faculty members of Stanford University. He held degrees for the University of the Pacific and the School of Sacred Music at Union Theological Seminary in New York City, now the Yale Institute of Sacred Music. Following graduation, Roberts briefly held organist posts in New York City and Richmond, Virginia before joining the faculty of the University of Nebraska in 1940 where he taught organ and music theory for thirty-four years and where one of his students was Gene Bedient, the founder of the company which has built our new chapel organ.

Roberts composed a great number of birds is depicted musically. Several bird calls may be heard dispersed throughout the piece.

Fantasy on the Hymn Tune “Nicaea”  ________________  Piet Post  (1919 – 1979)

(Fantasy on the Hymn Tune “Nicaea”  ________________  Piet Post  (1919 – 1979)

(Dutch Organist and Composer Piet Post spent his entire life in or near Amsterdam. Other than the church organist and teaching positions he held, little in know of his life. Of the few works left at his death, his fantasy on the hymn tune long associated with the text “Holy, Holy, Holy! Lord God Almighty! is his best known. It presents the tune in differing guises while demonstrating well the capabilities of both the organ and the player.
