

FriendShip Preschool Print and Social Media Policy and Form

Throughout the school year, our FriendShip and Sewickley Presbyterian Church staff take photos and videos of our students in class and during special activities. They may be at play on the playground, listening to a story in circle time, participating in a special event such as a visit from the local library or Trick-Or-Treating with our staff around the church, or a variety of other school and church related activities. We sometimes use these photos/videos to promote our school and share the ministry of the preschool with our church family in addition to our school family.

These images may be used in a brochure (or other printed promotional materials), on our school webpage, and/or on social media. They may also be used in our church newsletter, and other church or school publications, when needed. Many of these publications are available to view on our church website and/or on our social media accounts. Links for our accounts can be found on our web pages:

- www.sewickleypresby.org
- www.sewickleypresby.org/friendship_preschool

Though a child's image may be used in the manner described above, it is our policy to never identify anyone by name in any of our social media posts or web content. Preschoolers are also never identified by name in any of our publications or marketing materials.

Please chose one of the following options for your child(ren).

- ☐ Yes, I give permission for FriendShip Preschool and/or Sewickley Presbyterian Church to use images or video that include my child for marketing materials and social media.
- ☐ No, I do not give FriendShip Preschool and/or Sewickley Presbyterian Church to use images or video that include my child for marketing materials and social media.

If you have any questions or concerns, please feel free to contact Erin Leghorn.
